COMMERCIAL AND FINANCIAL

Wheat Market Tones Up Three-Eighths of a Cent on Shipping Orders.

WEATHER AND CABLES DEPRESS CORN

Oats Unchanged to One-Eighth of a Cent Lower; Pork Ten Cents Down-Lard and Ribs

CHICAGO, Aug. 16 .- Difficulty getting wheat today to fill actual shipping orders had a strengthening effect on prices. Sep tember closed 3-8c higher and December 1-8c lower to the up. Corn left off 1-894c down. Oats are unchanged to 1-8c lower. Pork declined 10c and lard 25c. Ribs are unchanged to 21/2c higher.

Wheat got a weak start from Liverpool sending lower quotations, but there was a disposition during the first couple of hours to go slow on the selling side and take small profits on doalines. The crowd during that time were evidently restrained from seiling freely by the fact that the increased movement that country advices had been predicting for a day or two had not yet got beyond the stage of probability. Chicago received 215 cars and Minneapolis and Du-

beyond the stage of probability. Chicago received 215 cars and Minneapolis and Duluth sot 245, against 322 a year ago. Primary western markets received an aggregate of 662,000 bu., against 884,000 bu the corresponding day of the year before. Clearances from the Atlantic seaboard were equal in wheat and flour to 400,000 bu. The Seaboard was bearishly inclined and the northwest advices were all in favor of lower prices in view of the expected heavy receipts up there.

The speculative market turned fearfully dull and there was not much activity in the cash department of the business. The latter might have shown more life had stocks been heavier, but people who had bid from 5c to 10c a bu, premium over September in store for shipping parcels of No. 2 Kansas hard and No. 2 red winter could not get offers for anything like the quantity there were orders for from the scaboard. Kansas City's general remark in answer to bids from her was that cash wheat or spot or for August shipment was scarce, as millers were paying better than shipping rates for the moderate offerings from farmers. The condition of affairs had some little effect in hardening the tone of the speculative market, but it apparently depended more upon prudential covering by shorts than buying for long account for the little additional price caused by the peculiar condition of the cash market. September opened unchanged to 1-8c higher at 650651-8c, sold off to 645-8c and rallied to 633-8c bid at the close. December started unchanged at 634-8c, declined to 631-8c, advanced to 631-6c and closed at 631-8c, advanced to 631-6c and closed at 631-8c, advanced to 630-6c and closed at 630-6c and devented unchanged at 630-6c and closed at 631-8c, advanced to 630-6c and closed at 630-6c and devented unchanged at 630-6c and closed at 631-8c advanced to 630-6c and closed at 630-6c and devented unchanged at 630-6c and closed at 631-8c advanced to 630-6c and closed at 630-6c and devented unchanged at 630-6c and devented at 630-6c and devented and ower cables.

and closed at 631-896315e.

Commission house liquidation on the continued favorable weather and lower cables depressed corn. There was no evidence, however, of any general weakening on the part of the harvest longs. The country parted more freely with corn and a feature of the day's business in the pit was selling by elevator people. Sentember opened by

parted more freely with corn and a feature of the day's business in the pit was selling by elevator people. September opened 1-Sc lower at 32½622 5-Sc, declined to 32½c and rose to 32½c, asked at the close.

In spite of considerable buying of the May futures by the Oatmeal trust, oats put in the day following corn and prices barely held their own. September began unchanged at 203-8020½c.

Packers were sellors of provisions early in the session and one or two scalpers bought. The latter squirmed about during the remainder of the session endeavoring to unload upon some one else. The market was kept under the influence of the yellow fever quarantine flag by allusions in the news of the day to fever among the troops coming to Montauk Point. Packers reported a heavy cash trade. September pork opened 7½c lower at 8,02½, sold down to \$8,35 and rose to \$5,00 at the close. The range in lambs was narrow.

Receipts for tomorrow: Wheat, 68 cars; corn, 348 cars; oats, 222 cars; hogs, 26,000 head.

The leading futures ranged as follows:

STOCKS AND BONDS. Further Advance in the Price of NEW YORK, Aug. 16.—There was a still further advance in the price of stocks all along the line today and a still further increase in the number of different stocks it raded in was also larger, reflecting the broadening interest in the market. Buying orders from outside sources were placed with commission houses more extensively today than on any day since the movement began. As was the case yesterday, this outside demand was taken advantage of to realize profits by the combination of the stocks to another. These stocks of group of stocks to another. These stocks of group of stocks to another. These stocks during the first hour of trading that the heavy outside demand proved insufficient to absorb them and a sharp decline was the result, Burlington dropping over a point. Offerings on a scale were thereupon withheld and the group maintained a firm tone at a lower level, except for intervals of this profit taking. The beats endeavored to take advantage of this profit taking movement by an onslausht upon Manhattan and Sugar at the opening. So these the receipt persistent weakness of the manhattan and Sugar at the opening and marked up Rubber preferred 4½ points. The outside demand for stocks all through the list was also active and varied as to lend ample support for continued profit taking by the bull clique. The bears were soon routed and Manhattan and Sugar moved upwards along with the general list. Northern Pacific and the Union Pacific stocks sagged at intervals, but the opening and marked up Rubber preferred 4½ points. The outside demand for stocks all through the list was also active and varied as to lend ample support for continued profit taking by the bull clique. The bears were constantly being support for continued profit taking the profit and the former returned persistently to the opening high le Stocks All Along the Line. NEW YORK, Aug. 16.—There was a still further advance in the price of stocks all along the line today and a still further in-

Stocks the other stocks were featureless. Spanish 4s were flat.

Money rates here were easy, a large amount of Indian government debentures having been paid on today. Discount rates were steady, however, the market being puzzled as to the question of gold exports to New York. It is said that the continued rise in Americans will harden the New York money market, more money being required to carry stocks, but, on the other hand. New York's continued purchases affect the indebtedness botween that market and London. Japan is buying gold moderately. The following are the closing quotations of the leading stocks on the New York market today:

generally firm. Loan conditions were barder, and coal stocks were stimulated by favorable reports from Essen. American securities showed considerable animation fit response to advices from New York. This was especially the case with Northern Pacific securities. A good deal of attention was paid to Argentines.

LONDON, Aug. 16.—The market for American securities was strong from the opening to the close, the strength being due to New York buying orders. Buillion taken into the Bank of England on balance today, £48,000. Spanish 4s closed at 424, a net loss of ½ from yesterday's closing. Gold is quoted at Buenos Ayres today at 175,70. 15.70.
MADRID, Aug. 16.—Spanish 4s closed at 5.85. Gold was quoted at 59.99.
LONDON, Aug. 16.—The stock market will e closed on August 20 for renovation.

and in the meantime they lowered their bids to about \$3.75 for good leads. In the end, however, buyers cleared the yards, paying about the same prices as prevailed in the morning—that is, \$3.775,63.80 principally. Hogs sold today over 10c higher than one wesk ago and furthermore there have been only two or three days this month when they sold any higher than they did today. Another fact that will be noted from the tabits at head of column is that the receipts today were smaller than one and two weeks ago and to that it might be added that they were the smallest for a Tuesday since the first week in July.

At the time of closing this report there were four or five loads of late arrivals unsold, for which buyers were offering only \$1.75, which would be not much more than steady with yesterday. Representative sales:

120

There were three cars of shee SHEEP-SHEEP-There were three cars of sheep reported in the yards, but they were consigned direct to the packers and were not offered for sale. In other words there was nothing on the market to make any test of values or establish quotations.

Buyers, however, were all apparently anxious for supplies, and judging from the way they were enquiring as to when there were likely to be any further arrivals the market world have been strong and active if there had been any desirable muttons to be had.

The demand for feeding sheep continues good and all arrivals are picked up very good and all arrivals are picked up very quickly. There seems to be a disposition among buyers of feeders to pay \$3.50@3.75 for wethers, \$4.00@4.25 for yearlings and \$4.25@4.50 for lambs.
